

“WHAT THEY SAY ABOUT PROTEUS”

Stan Bauer

Enclosed is a picture of the C type on the California Mille last May. I drove the car from LA to San Francisco. The next 4 days participated in the California Mille and then drove back to LA.

We did a total of 2,000 miles in the 6 days. We had two days of rain and four days of sunshine.

The car performed beautifully not missing a beat during the entire trip.

Stan Bauer
