Proteus the Shape-shifter

Why did the amazing Proteus Car Company adopt the name? From the God Proteus comes **protean**, with the general meaning of "versatile", "mutable", "capable of assuming many forms": "Protean" has positive connotations of flexibility, versatility and adaptability. And so it is with Proteus Cars. Despite being known primarily for its immaculate *C Type* replicas, the company is on the cusp of adding to its range in 2008 with "the car that Jaguar never built" – the classic C Type Coupe version. After discussion with fans of the marque as well as dealers at the recent highly successful Bremen Auto Show, Proteus management (Matt Beverley and Jayne Goddard) have gone firm on plans to introduce the Coupe at the forthcoming Retro Live Show at Stoneleigh on the 14th, 15th and 16th of March.

The Coupe is the next logical progression in the development of a range of retro road models from the golden age of sports car racing. It is a matter of company policy to gradually augment the C Type and C Type Coupe over the year with the following:

One thing is for sure – Proteus is driving onwards and not resting on the laurels earned over two decades for production of the impeccable C Type.

Amazingly, at Stoneleigh not only will it be possible to check out the C type and its Coupe derivative on the Proteus stand but names will be taken for those who wish to track sample either machine at a date shortly thereafter.

For some, another reason for coming to see Proteus at Stoneleigh is that dealerships are still being assigned in the territory north of Birmingham and into Scotland. To ensure that you have a chance to talk with Matt or Jayne please contact them prior to Stoneleigh at:

Matt Beverley **Chairman** Tel: 00 44 (0) 870 4810 380 Mob/Cell: 00 44 (0) 7912078033
